## MY HOME

The Italian Republic is located on the Italian Peninsula in Southern Europe, and on the two largest islands in the Mediterranean Sea, Sicily and Sardinia. Italy shares its northern Alpine boundary with France, Switzerland, Austria and Slovenia. The independent states of San Marino and the Vatican City are enclaves within the Italian Peninsula. Italy has been the home of many European Cultures, such as the Etruscans and the Romans, and later was the birthplace of the universities and of the movement of the Renaissance, that began in Tuscany and spread all over Europe. Italy's capital Rome was for centuries the center of Western civilization, it also spawned the Baroque movement and seats the Catholic Church. Italy possessed a colonial empire. Today, Italy is a democratic republic and a developed country. It is a founding member of what is now the EU and a founding member of NATO.

# YOUR PROJECT

Make helicopter or other kind of key rings .

Group activities.

Table games like memory etc.

## **The most difficult moment on Your project.**

One of the most difficult things in my project was the first impact I got of the game room: I was so sad look that children without hair with the masks and the stuff for change the blood. Other difficult thing for sure was sometimes I found child doesn't t want to speak just site around the table but like a ghost I was so sad all this time I was feeling completely useless in the way I can t entertain them.

## **The most easy moment on Your project.**

For sure the most enjoyable thinks on my project was when you can see the children after the therapy when they talk again, have color on the face, the hair growing up back and they are full of energy jumping everywhere and asking us about everything without any break.

## **Unforgettable moment on Your project.**

**The unforgatable moment of my project was in the isolated room: there was a child (so cute), he couldn't speak at all and with my project partner we tried for 3 days to make him speak. Finally one day he started to smile from and when my joke and when my work friend went outside just for some minutes, he started to speak....it was so great feeling. After that he was chatting all the time.**

## **What did You want to gain on Your EVS ?**

**My plan was to get new skills about on kind of work it was so different for what I did in my life...also learn new culture and improve myself.**

## What did You achive on Your EVS ?

For sure now I feel much more self-confident... I improved very much my English, it is still not perfect but I am very proud about my development in this language. And of course I am so happy to have the possibility to learn this culture and also to discover I am very good with children- that surprised me a lot.

## **AFTER EVS**

**What are Your plans after EVS?**

**I think I will do the exam for enter the university of architecture in Bari**
