YOUTH IN ACTION

Turkish National Agency

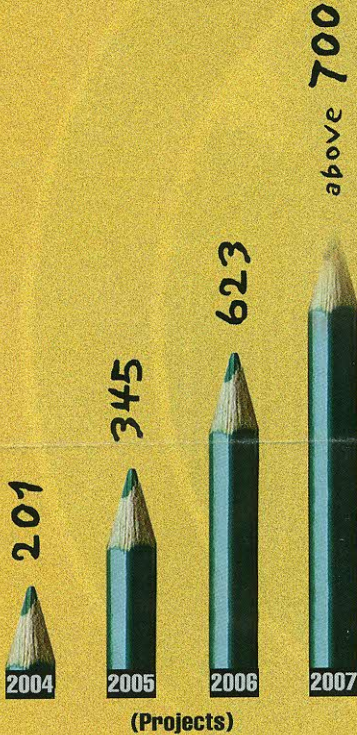

The Centre for the EU Education and Youth Programmes (Turkish National Agency) has been implementing the EU Education and Youth Programmes in Turkey since 2003. Being responsible for executing the Lifelong Learning and Youth Programmes, it helps developing the intercultural dialogue, strengthening the intercultural cooperation, fighting against xenophobia. So far, more than 3000 projects have been implemented and almost 40.000 individuals have already benefited from the EU Education and Youth Programmes throughout Turkey.

Young people can start a youth initiative in a local dimension or bring together many European peers to discuss social topics such as environment or protection of historical heritage, or participate in an international project activity voluntarily and work in that project up to 12 months. The programme also gives support to meetings, seminars, conferences, workshops to prepare good project activities or to establish strong partnerships to implement the above mentioned activities.
